How to Play

Maneuver your spacecraft to avoid enemy fire and obstacles while shooting down enemy ships to increase your score. Collect power-ups along the way to defeat the enemy more efficiently. Aim for a new high score!

The Story So Far

In the distant future, humanity has spread throughout the galaxy and established colonies on countless worlds. But as they explore ever deeper into the cosmos, they encounter a new threat: an alien race known as the Zaxons, who seek to conquer and enslave all who stand in their way.

As a skilled spacecraft pilot, you are called upon to join the fight against the Zaxons and defend humanity's colonies from their relentless attacks. With your trusty spacecraft at your command, you must battle through wave after wave of enemy ships, taking down as many as you can and earning points and power-ups along the way.

As you progress through the game's never-ending level, you'll face increasingly difficult challenges and fierce boss battles. But with quick reflexes, precise aim, and a little luck, you just might be able to defeat the Zaxons and save the galaxy from their tyranny.

So gear up, pilot, and get ready to take to the stars in this epic battle for the fate of humanity!
